Technologies Private Limited

Designed to  
Perform  
Manufactured to  
Last

Established in the year 1978, we, an ISO/TS 16949:2009 & ISO 9001:2008 certified company, SK Spring Auto Components, are one of the leading and prominent manufacturers, suppliers and exporters of a broad assortment of the finest quality of Springs & Wire Forms.

Capable of producing more than 300 million Springs annually, with latest CNC controlled colling machines, grinding machines & special purpose machines, we are efficient in manufacturing any design of Springs as per the customer specifications.

Our product range is widely used in various automobile industries and engineering machines. In addition to this, the offered springs and wire forms are available with us in user-defined specifications. With our aid of our state-of-the-art infrastructure and a team of skilled professionals, we have been able to meet the precise needs of our esteemed patrons.

Mr. S.K. Gandhi, our founder and mentor, has helped us developing moral and ethical values, which has helped in building the company into one team. At SK Spring we believe in working closely with our customers to develop long-term relationships, which is mutually beneficial. To a large extent, our company's success is attributed to successful customer relations and exceeding expectations in terms of quality, performance, value and reliability.

At SK Spring, our engineering group has the technical expertise to provide customers with a wide range of supporting practices. We deliver the high service levels you would expect from a family-owned springs manufacturing business while maintaining the professionalism you want and need from a springs supplier.

## Raw Material Equivalent Standards

### Spring Steel - Medium Carbon Wire

<b>Indian Standard</b>	IS 4454 Part I, Grade-2
<b>Equivalent International Standards</b>	ASTM A 227 UNI 3823 Class B DIN 17223-1-1.0600 DIN 2076-B EN 10270-1(SM, DM) JIS-3522

### Spring Steel - High Carbon

<b>Indian Standard</b>	IS 4454 Part I Grade 3
<b>Equivalent International Standards</b>	ASTM A 228 UNI-3823 Class C DIN 17223-1-1.0200 DIN 2076-C EN 10270-1-(SH, DH) JIS-3522

### Spring Steel - Oil Tempered Alloy Steel Wire

<b>Indian Standard</b>	IS 4454 Part III, Grade-2D (Chrome Silicon)
<b>Equivalent International Standards</b>	ASTM A-401 DIN-17223-2 FDSiCr DIN-17223-2-VDSiCr EN-10270-2 FDSiCr EN 10270-2-VDSiCr

### Stainless Steel Wire

<b>Indian Standard</b>	IS 4454 part-IV Gr- 1 & 2
<b>Equivalent International Standards</b>	AISI 302 AISI 304 ASTM A 313 DIN 17224 EN 10270-3

## Manufacturing Facility

- CNC Wire Forming
- CNC Spring Coiling
- CNC Wire Bending
- Conveyorised Stress Relieving Furnaces
- Vertical Shot Peening
- CNC End Grinding Machines
- Pneumatic Scragging
- Conveyorised PT Line
- Conveyorised Powder Coating Facility
- German Made Mechanical Coiling Machines
- Circlips Forming Machine

## Design & Engineering

At SKS, our engineering group has the technical expertise to provide customers with a wide range of supporting practices. Contact us for design assistance. We offer a quick response to meet your needs from prototype springs to small batch springs to various high precision springs and high tech springs that require fast turnaround. We can run a thorough analysis to assist you in designing the best spring for your application.

- Custom engineering capability
- Computer aided design (CAD)
- Design modifications for cost efficient production
- Alternative manufacturing and materials evaluation
- Tooling designed & manufactured with minimal charges

## Quality Assurance

We believe quality should be a total team effort. This is a built in feature at Spring Manufacturing Corporation from design through the finished product, every step of the manufacturing process is carefully monitored. Specifications and tolerances are inspected utilizing advanced equipment.

At SKS, every spring is delivered with the finest quality that strictly adheres to the specifications rendered by the customers with timeliness.

### Our customers' success is our true success.

With an immense sense of commitment to attain perfection, SKS engages in an environment of integrity, authenticity, and mutual admiration.

## Hardware Kit General Features

	SKS Kits
<b>Application</b>	Standard Service Platforms
<b>Market</b>	Trailer, Line Haul
<b>Return Spring</b>	Standard Heat Treated Music Wire
<b>Cam Roller</b>	Smooth
<b>Anchor Pin Bushing</b>	Steel or Composite
<b>Lubricant</b>	Not Applicable

Genuine SK Spring Hardware Kits are designed for every application and operating condition. Choose from three levels of hardware kits designed to meet the specific needs of your fleets:

- SK Spring Hardware Kits meet or exceed all OE standards and are specifically designed for trailer and line haul applications.
- SK Spring XLS Hardware Kits, designed to meet the demands of the SK Spring Extended Service brake systems, feature knurled rollers, heavy-duty return springs and stainless steel anchor pin bushings.
- SK Spring SD Hardware Kits, designed for the most severe applications, feature anti-seize lubricant and dimpled stainless steel bushings. The combination of these components reduce anchor pin to bushing seizure, making future brake changes easier.

**For superior performance and the "Lowest Cost per Mile" choose SK Spring.**
